What Have the SCTNow Operatives Been Up To in 2010?

Many of you may be wondering what progress has been made since the 2009 SCTNow Walk season.

Here is an exciting update of how we're already taking major steps toward winning the fight against child predators!

With your help and financial support, SCTNow Operative teams have:

- Activated 7 full-time Operatives
- Launched Cyber Division--the Cyber Division works to identify online child sexual predators
- Implemented GTRescue Database-- a one-of-a-kind, Sexual Exploitation Network Analysis Tool (SENAT) that allows high-level collection of predator and victim data collection. It is compatible with the Law Enforcement - Record Management System (LE-RMS) so that law enforcement can easily reference the data to support their investigations against child trafficking predators.
- Established dozens of relationships with non-profit and for-profit organizations that support efforts and work alongside to see child sex trafficking obliterated
- Obtained surveillance equipment, surveillance vehicles, computer support, communications and technical support and the \$250K GTRescue database
- Completed and turned over 6 child predator cases to law enforcement (one case added since video)
- Daily documenting an average of 4 predators and adding them to our GTRescue Database

- Field missions currently in Austin, TX and will be going to Tulsa, OK and San Diego, CA in the next 2 months.

All of this has been done with the first gift of \$300,000 given to the operatives last year! We are just getting started, the foundation is built, and the BEST is yet to come!

Your fundraising dollars are effectively STOPPING predators and SAVING children!

Let's keep up the fight and STOP CHILD TRAFFICKING...NOW!
